## COLLABORATIVE AND SUPPORTIVE EDUCATION (CASE) SEMINARS

CASE is a monthly interprofessional collaboration hosted by MUSC to present and discuss challenging developmental-behavioral pediatric cases. This virtual series will strengthen PCPs capacity to recognize and manage psychosocial and developmental concerns within their practice.

Tune in on the 2nd Tuesday of each month from 12-1pm by clicking [here](#) to register.

## MCPAP CLINICAL CONVERSATIONS SERIES

The Clinical Conversations Series is hosted by the Massachusetts Child Psychiatry Access Project (MCPAP) to improve access to behavioral health resources for PCPs. This monthly virtual series features a child psychiatrist or subject matter expert sharing on a variety of behavioral health topics.

Tune in on the 4th Tuesday of each month from 12:15-1:15pm by clicking [here](#) to register.

## FREE SUICIDE PREVENTION TRAININGS FOR PCPS

Did you know that over 20% of youth have seriously contemplated suicide? [SafeSide Prevention](#) offers suicide prevention trainings designed for primary care providers to address this critical issue.

By offering video-based trainings taught by a primary care psychologist and a suicide attempt survivor, SafeSide Prevention works with PCPs to increase their skills and confidence when treating at-risk youth.

If your primary care practice is interested in taking advantage of this free opportunity, please fill out [this interest form](#) or send an email to [info@yap-p.org](mailto:info@yap-p.org).

## Consulting with YAP-P is as Easy as 1-2-3

### Step 1

Your practice connects with YAP-P via phone by calling 1-877-729-2779

### Step 2

Appointment times are offered and PCP selects televideo or phone option

### Step 3

Calendar invite is sent to PCP for when psychiatrist will contact PCP for consultation
